For those who have been caregivers,
those who are currently caregivers,
those who will be caregivers, and
those who will need a caregiver !

Problems faced by Caregivers

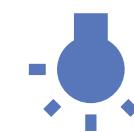

Who are Caregivers ?

Usually a family member, friend or professional caregivers who take care of the dementia patient.

Invisible Second patients

The toll of physically and emotionally tending to another adult's needs can lead to burnouts along with health issues for the caregiver.

Problems faced by them

Loneliness, dealing with conflicting emotions, mental health issues, not having time for themselves, stress and Exhaustion

Opportunities

- We intend on developing our platform for the caregiver community globally.
- By connecting all caregivers and dementia care organizations , we aim at encouraging the society to create a dementia-friendly environment.

Solutions

- Respite and Revive

Take some time off your job by looking for events within the locality and entrusting the patients to volunteers who are ready to fill in for them.

- Connect and Converse

Reach out for people who can relate to what you're going through on a personal level and learn from the experiences of others who have faced the same challenges

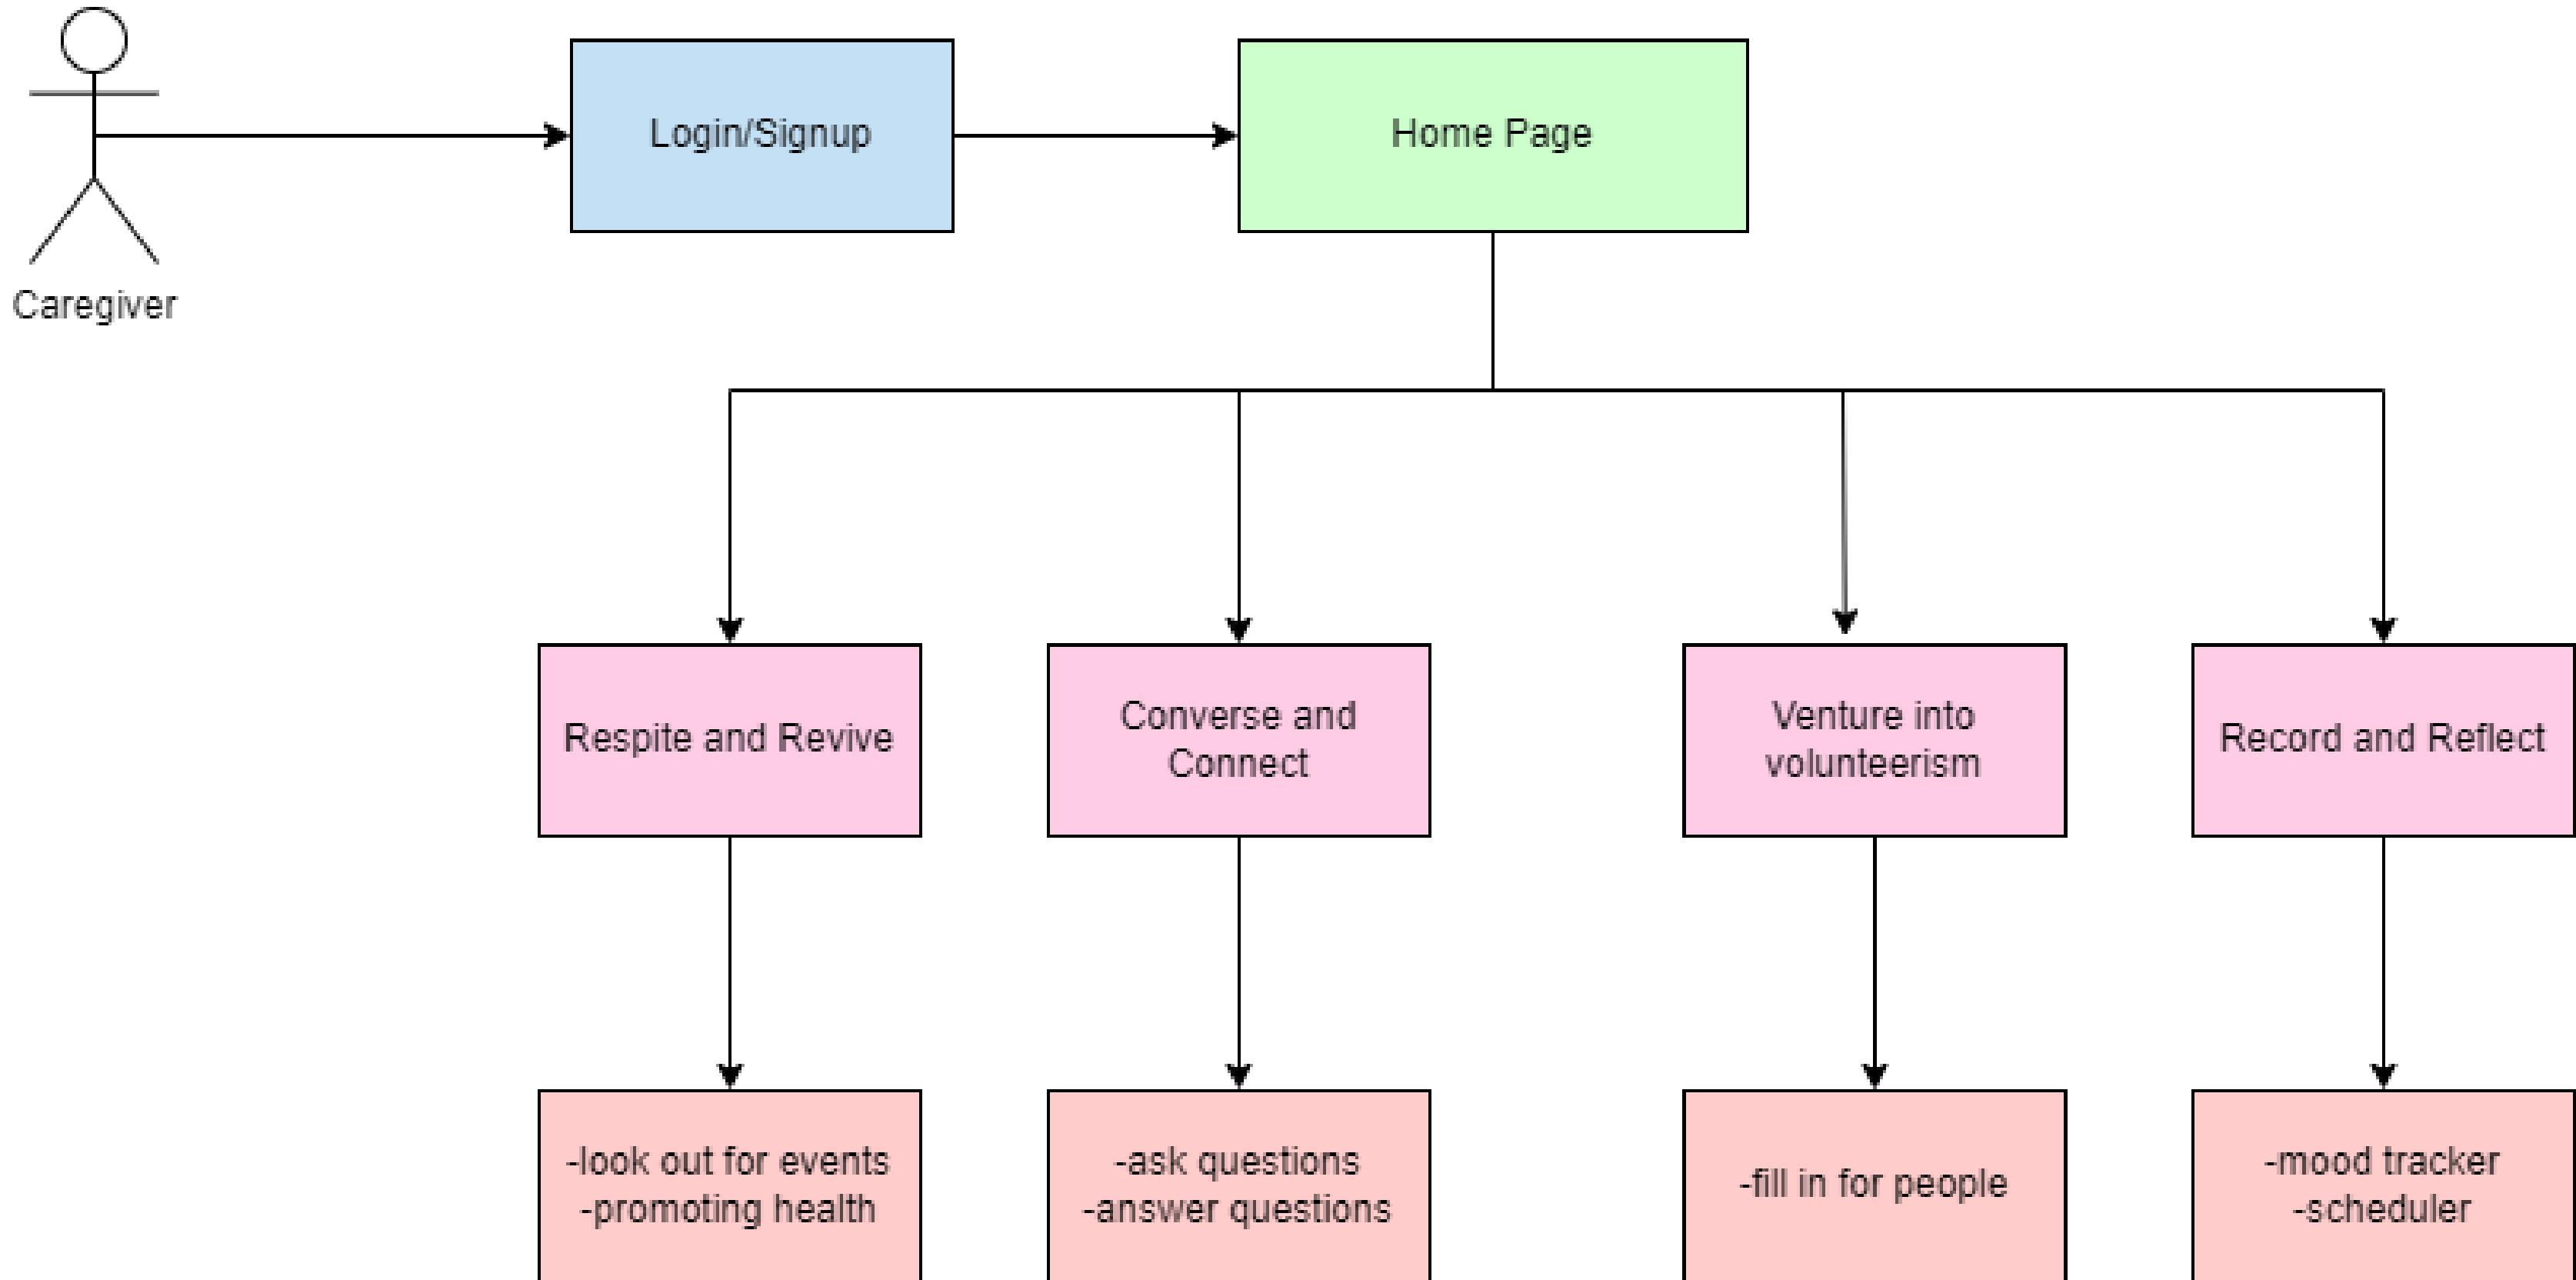

- Venture into Volunteerism

Sometimes all it takes to transform someone's life is a small act of compassion and consideration. Become a Volunteer and make a difference for another today.

- Record and Reflect

Self care is often easier said than done. Make time for reflection to maximize productivity and satisfaction while maintaining emotional well-being.

Novelty

- Provides a way for collaborating with other caregivers in hosting and participating in events.
- Connects fellow caregivers to clarify queries by asking and answering them privately.
- Acts as a platform for volunteers to fill in for the caregivers which in turn also acts as a job opportunity for them
